

Welcome to a Healthier, Fuller Life

How your **Life Plus** Plan Works

AVON  HMO

A warm welcome and thank you for choosing Avon HMO.

Our purpose is to empower you to live a healthier, fuller life by providing access to quality healthcare services. This booklet provides you with key information about your health plan including how to access medical care and details of the covered services.

A few things to note:

Please keep this booklet handy so you can easily access information about your health plan and benefits.

Your health plan provides cover for a period of 12 months and for the specific medical conditions/ services listed on the plan.

Some benefits are subject to a waiting period (details inside). Once you complete the waiting period, these benefits will become accessible permanently as long as you renew your health plan with Avon HMO.

Always keep your membership card with you in case of an emergency.

It helps to save the Avon HMO contact numbers – 0700-277-9800 on your phone so you can easily reach us.

Should you have any difficulties at the hospital, please contact us while you are there so we can resolve it right there and then when all parties are present.

Our Call Centre is open 24 hours a day, 365 days a year so we are always here to help.

Telephone: 0700-277-9800

Email: callcentre@avonhealthcare.com

SMS: 0817-513-3802

WhatsApp: 0817-513-3802

How to access medical care

At any time when you need medical attention, simply visit the hospital you selected on your enrollment form and present your Avon HMO Membership card.

The hospital will take down your details from the card and attend to you accordingly.

In case of emergencies

Go to the hospital closest to you to receive immediate medical attention.

If this happens to be a hospital that is different to the one chosen during enrollment, it is important that we are **notified within 24-48 hours at the latest**. This is important to ensure you receive any refunds you may be entitled to.

Out of your state of residence?

Please contact us and we will help you find a hospital on our network close to your location.

As an Avon HMO member, you will not need to pay for any service covered by your plan, provided you visit a hospital on our network.

Need to see a dentist?

To make things easier for you, we recommend that you only visit a Dental Centre on our network. If you need help finding a facility, please give us a call.

Once there, all you have to do is present your Avon HMO Membership Card to access care.*

Need to access optical care?

For optical care, you will need to first obtain a referral from your doctor.

To get a referral, please visit your primary hospital, see your doctor and you will be referred based on the doctor's recommendation.

Please note that direct visits to Optical Centres without a doctor's referral are not covered.

How to claim a refund

Refunds are valid only in the event of a life-threatening emergency where an immediate payment was made at a hospital outside our network. If this occurs, it is important that we are **notified within 24-48 hours at the latest**.

To claim a refund, we would require a comprehensive medical report and detailed receipt(s). Your refund may not be processed if you provide information that is invalid, incorrect or incomplete.

Please note that refunds for covered services in non-emergency situations will not be honoured.

Staying healthy

We're immensely excited about you joining us on this journey towards living a healthier, fuller life. Our goal is to ensure you stay healthy.

Stay updated with regular health tit-bits via our blog, Live | Love | Discover which can be read online at www.avonhealthcare.com.

Need more information?

If you have any questions or require additional information, please call our 24 hour Call Centre or visit the FAQs page online at: www.avonhealthcare.com/understanding-insurance/faqs.

*Please note that some services may require pre-authorisation.

This section discusses the benefits, services and limits that apply to your health plan. The information on these pages must be read in conjunction with 'Waiting Periods and Exclusions' section to understand what is not covered.
